

Vincent Eddie Coraldean

Frontend Developer – React / Next.js | London | Open to Hybrid or Remote

[GitHub](#) ■ [Portfolio](#) ■ [LinkedIn](#)

Frontend developer specialising in React, Next.js and TypeScript with experience building full-stack applications and developer tools. I focus on building performant, accessible web applications and implementing modern workflows including CI/CD pipelines using GitHub Actions.

Recent projects include an AI-driven recommendation platform and a developer access-request tool designed to simplify technical workflows for non-technical clients.

Tech Skills

Core Stack:	React, Next.js, TypeScript, JavaScript
Backend / APIs:	Node.js, Express
Styling / UI:	HTML5, CSS3, Tailwind CSS
Tooling:	Git, GitHub, CI/CD (GitHub Actions), Vercel
Data / Services:	MongoDB, Sanity CMS, OpenAI API

Projects

ELOQUENT SHELF | [View live demo](#) | [View GitHub repository](#)

Next.js • TypeScript • Sanity CMS • Tailwind

Book recommendation platform combining editorial content with AI-driven recommendations.

- Built dynamic pages using Next.js routing and server components
- Integrated Sanity CMS for structured content management
- Implemented AI-based recommendation logic using the OpenAI API
- Migrated production Next.js application to TypeScript, resolving path alias conflicts, dependency vulnerabilities, and deployment issues while maintaining a stable production build.

RELAYABLE | [View live demo](#) | [View GitHub repository](#)

Next.js • OpenAI API • Tailwind

Developer tool designed to streamline technical access requests from non-technical clients.

- Designed a workflow system to structure and validate access requests
- Implemented automated CI/CD pipeline using GitHub Actions
- Added automated testing before deployment to prevent production issues
- Designed UX for non-technical stakeholders interacting with engineering workflows

Previous Professional Experience

Full employment history available on [LinkedIn](#)

Customer service and operations roles prior to transitioning into software engineering.

Developed transferable skills including:

- **client communication**
- **problem solving**
- **operational coordination**

Technical Education

Independent study in modern web development including:

- *Harvard CS50 computer science courses*
- *Advanced React and Next.js development*
- *Node.js backend development*
- *CI/CD pipelines with GitHub Actions*
